

OUR LADY'S COLLEGE

LANGUAGE POLICY

Using **ENGLISH** as the Main Medium of Instruction

To create a rich English learning environment, English is adopted as the major medium of instruction. All Science and Humanities subjects are taught in English in all junior forms so as to consolidate our junior students' English learning ability. English is also used as the MOI in most of our senior secondary elective subjects in order to improve students' command of English and enhance their tertiary education and career opportunities.

Hong Kong Schools Speech Festival

Dramatic Duologue (Champion)

Thematic Group Speaking (Champion)

Creating an English Learning Environment to Strengthen Students' **LANGUAGE PROFICIENCY**

- ▶ We organize a variety of English activities including English Speaking Days, Student Ambassador Scheme, lunchtime performances as well as encouraging students to join various inter-school English events and competitions so as to enhance students' learning motivation and English proficiency and strengthen their communication and learning capabilities, which will equip them for their future studies and career development.
- ▶ Every year, our English Drama Club invites native English speaking drama instructors to prepare students for the annual drama performance in order to increase students' exposure to English, thus enhancing their confidence in using the language.
